#### **SUMMARY PROFIT & LOSS**

£m	Half year 31 March 2024	Half year 31 March 2023
Average AuM	10,034	11,194
Closing AuM	10,712	10,995
Net revenue	30.1	35.0
Net management fee margin (bps)	59.3	62.5
Administration expenses	(24.8)	(27.1)
Finance Income	0.4	-
Adjusted profit before tax	5.7	7.9
Amortisation	(2.5)	(2.4)
Share-based payments	(2.1)	(2.6)
Merger related costs	-	-
Exceptional costs	(0.5)	(0.5)
Profit before tax	0.6	2.4

AuM increased by 9% over the half year (2023 FY: £9.8bn).

Net outflows for the period of £486 million were offset by inflows from fund acquisitions and disposals totalling £440 million with positive market and investment performance of £937 million driving the AuM increase.

Net management fee margin reduced marginally versus the previous year, driven by the change in AuM mix and the impact of flows and markets on our existing business.

Administration expenses fell 8% primarily relating to lower variable remuneration which moves with the net revenues and adjusted profit before tax.

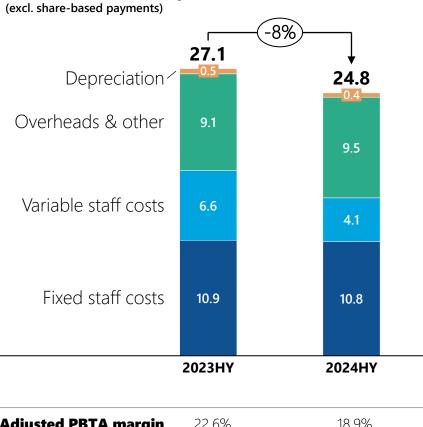

Amortisation relates to the unwinding of intangible assets.

The share-based payments reflect the charge associated with nil cost contingent share rights and the long-term incentive plan.

Exceptional costs related to professional fees associated with the acquisitions completed in the period.

#### **ANALYSIS OF COST BASE**

#### Administration expenses (£m)

Adjusted PBTA margin	22.6%	18.9%
FTE staff (closing) (including non-executive directors)	167	163

Fixed staff costs were flat on the comparative period.

At the period end, the Group had 163 full time staff.

Whilst this represents a decrease of four over the comparative period, the acquisition of Tellworth Investments added eleven FTEs at the period end.

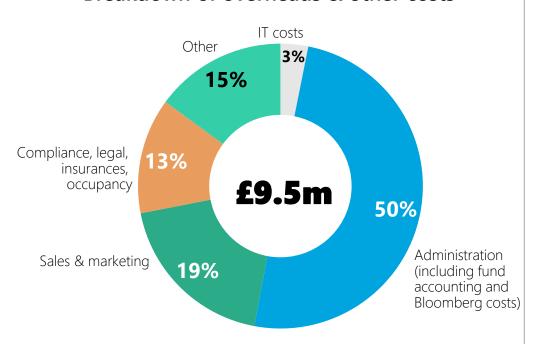

Variable staff costs adjust with the net revenues of the Group and the adjusted profit before tax.

The Group takes a prudent approach to cost discipline and will continue to do so as we move through the second half of the financial year whilst ensuring the platform remains positioned for growth.

Following the acquisition of Tellworth Investments on 30 January 2024, the planned migration of its business activities onto the Group's operating platform is on track to be completed in the second half of 2024.

#### **ANALYSIS OF COST BASE (CONTINUED)**

#### Breakdown of overheads & other costs

Overheads increased marginally on the comparative period to £9.5m (2023 HY: £9.1m) driven primarily by higher levels of sales and marketing activity. Notably this included the Group-wide Investor Conference in London in February, attracting c.200 attendees.

Approximately half of overheads relate to Bloomberg and administration costs. Included within this are fund accounting costs which move with the level of AuM managed by the Group.

The Tellworth acquisition is currently being integrated into the wider platform. As such there is some duplication of costs for two months in the period.
